UEI LLC dba Universal Energy.....

Houston, TX (March 25, 2010) – Universal Energy, a project management and engineering consulting services firm, in the Energy and Industrial sector, headquartered in Houston, Texas, announced that they have recently hired Mr. Joseph Klimowicz as Director of Business Development.

Mr. Klimowicz has a MBA in Marketing and Finance, and a BS in Civil Engineering Technology from the University of Pittsburgh. He brings over twenty years of experience in Business Development and Marketing with Companies such as Black & Veatch, Worley Parsons, North American Energy Services, Hitachi, Siemens and Westinghouse Electric. Universal Energy feels that Joe will be a valuable asset in the continuing growth of the Company.

Universal Energy professionals provide a wide spectrum of skilled resources, specializing in project and construction management, commissioning and startup, plant operations and maintenance support, and consulting services. Project support includes both domestic and international projects. UEI has maintained and strengthened its position in the power and energy industries as a premier project management and services company by maintaining our focus on core markets, core services and maintaining our core administrative and field management team. For more information visit the Company's website at www.ueillc.com.
